

# The New EnerGuide Label

Natural Resources Canada has updated\* the **EnerGuide label** to provide you with more information about your **home's energy performance:**

## LEARN ABOUT YOUR HOME'S ENERGY rating

You will receive a rating of the home's energy consumption in gigajoules

## AIM TOWARDS zero

The lower the number on the new **EnerGuide** scale, the better the energy performance of your home

## UNDERSTAND HOW YOU USE energy

The label breaks down energy consumed by source

## COMPARE YOUR HOME'S performance

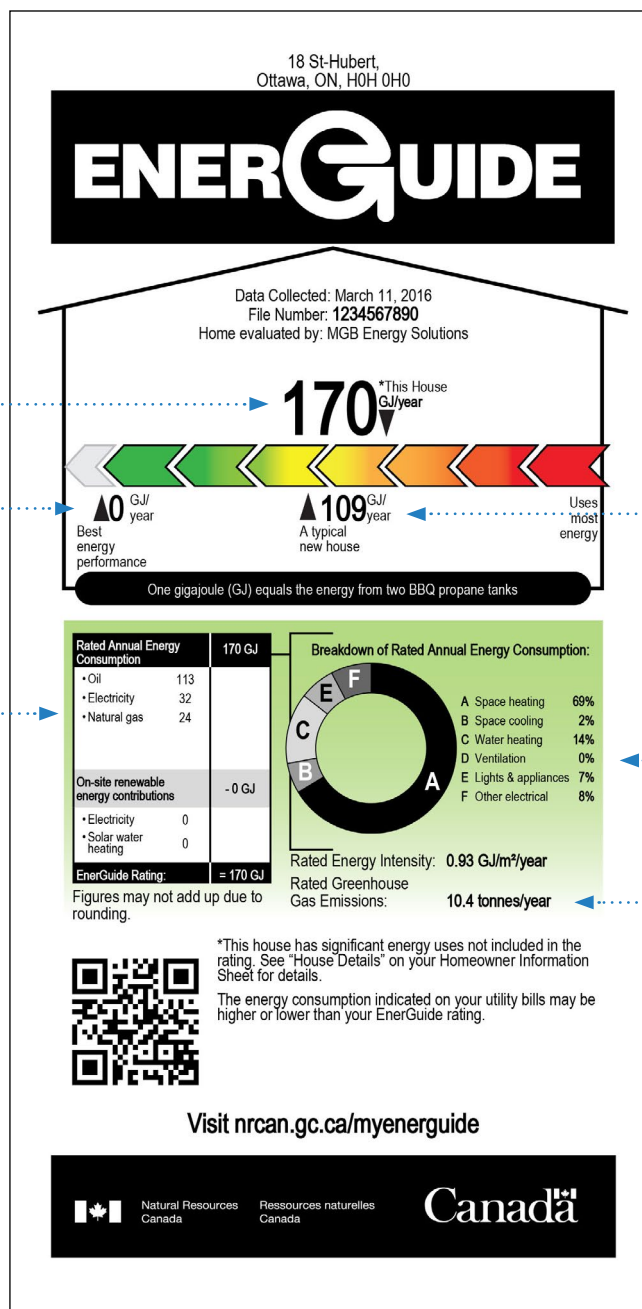

The label shows how your home's performance compares to a benchmark home

## FIND OUT WHERE MOST ENERGY IS consumed

The label shows proportion of energy consumed by heating, cooling, ventilation, etc.

## SEE YOUR IMPACT ON THE environment

The label shows your home's Greenhouse Gas Emissions

\*During the period of transition, some provinces and territories will continue to use the 0-100 scale until they are ready to fully adopt the new scale.

Learn how **EnerGuide** can help make homes more efficient, more valuable, and more comfortable at [nrcan.gc.ca/homes](http://nrcan.gc.ca/homes)
